

# Fact Sheet: Study on “Researchers’ International Mobility”

## Client

**DAAD**

[knab@daad.de](mailto:knab@daad.de)

## Research partner

**prognos**

[cordula.klaus@prognos.com](mailto:cordula.klaus@prognos.com)

## Objective

The study’s objective is to gain findings regarding researchers’ **informational needs** and **sources** as well as **mobility behaviour**. Therefore, the study thrives to establish a sound basis of information.

## Use of the findings

The findings of the study are **shared with all institutions involved, free of charge**. To stay informed, please register at: <https://ssl.daad.de/limesurvey/269452/lang-de>.

## Procedure

Using an **online survey**, (potential) researchers worldwide are asked about their mobility behaviour and informational needs. This is followed by **qualitative, in-depth interviews** with individual researchers.

## Target group

**(Potential) researchers on three career levels** are surveyed:

1. Master’s students
2. Doctoral students
3. Post-docs, junior professors and research fellows

We are interested in learning more about (potential) mobile and non-mobile researchers, whether they plan a research stay in Germany or any other country, or no research stay at all.

## Study countries

Our target group is surveyed worldwide, with a focus on the following countries:  
**United Kingdom | India | Israel | Mexico | Poland | South Africa | South Korea | United States**

## Your support

**Forward/distribute** the online survey through your own channels, such as mailing lists, newsletters, social media, etc.

## Study timeline

Carry out online survey: **until June 15**  
Carry out in-depth interviews: **June to August**
